# Brand Narrative

## BRAND NARRATIVE

Our Story

We are the crypto industry.

We started when blockchain  
technology was just developing.

## BRAND NARRATIVE

Our Story

Now, crypto is a household term.

And its widespread use could  
transform the world as we know it.

## BRAND NARRATIVE

Our Story

We think a technology  
with such great potential  
deserves our collective attention  
and imagination.

## BRAND NARRATIVE

Our Story

Together, we advance  
policy that ensures  
the success of crypto networks.

## BRAND NARRATIVE

Our Story

With agency.  
With consensus.  
With vision.

## BRAND NARRATIVE

Our Story

This is the next  
generation of the digital world.

02

# Brand Strategy

# BRAND STRATEGY

What are we?

Why do we exist?

Whom do we serve?

What makes us great?

What's our vision?

What's our mission?

What are our core values?

What's our tone?

How do we act?

What's our essence?

## BRAND STRATEGY

WHAT ARE WE?

A membership organization shaping the trajectory of the crypto industry.

WHY DO WE EXIST?

Because a new digital world demands representation, guidance, and community.

## BRAND STRATEGY

WHOM DO WE  
SERVE?

The leaders of the industry  
advancing a more open  
and democratic digital  
future for all.

WHAT MAKES US  
GREAT?

Innovative members working on the  
most diverse projects in crypto.

Respected leadership with an  
engaging perspective.

A proactive and responsive approach.

## BRAND STRATEGY

WHAT'S OUR  
VISION?

A decentralized world.

WHAT'S OUR  
MISSION?

**Advance the future of crypto  
in the United States.**

Promoting the potential of blockchain  
technology and shaping policy that  
ensures its success.

## BRAND STRATEGY

WHAT ARE OUR  
VALUES?

### **Agency**

Growing the power of our members

### **Consensus**

Driving progress as a collective

### **Impact**

Earning wins and affecting change

WHAT IS OUR  
TONE? (voice)

### **Informed**

Credible and measured

### **Optimistic**

Positive and inspiring

### **Real**

Direct and intuitive

## BRAND STRATEGY

HOW DO WE ACT?

**We advance policy** for the implementation and development of crypto networks.

**We drive conversation** and foster consensus. We educate policymakers and the public through clear facts and inspiring stories.

**We recognize** promising innovators and ideas.

## BRAND STRATEGY

WHAT IS OUR  
ESSENCE?

**Our belief is that every brand has a central idea, or tension, that is a constant source of inspiration.**

This brand tension is an internal tool for the creative team, serving as the bridge between strategy and design to prompt the sketching process and provide a unifying concept for all expressions.

## BRAND STRATEGY

WHAT IS OUR  
ESSENCE?

## REAL

Intuitive  
Humanistic  
Down-to-earth  
Familiar  
Honest

## POTENTIAL

Awe-inspiring  
Technical  
Authoritative  
Elevated  
Optimistic

## SUMMARY

The collective voice of the U.S. crypto industry. We advocate for peer-to-peer technology that puts power in the hands of creators and consumers.

This is the next generation of the internet, the digital world we deserve.

03

# Logos

# LOGOS

The Blockchain Association logo **acts as the hero** element in our brand recognition. It is composed of the symbol and the wordmark working cohesively together.

Although the symbol can stand on its own, the most widely used lockup should be the horizontal format followed by the vertical setting. As a emerging brand it is paramount that the logo is used consistently and correctly across all work.

## HORIZONTAL LOCKUP

The horizontal logo consists of the wordmark anchored to the right of the Blockchain Association symbol.

This is the preferred lockup and should be used in most instances except small applications like social icons and unique situations that are not conducive to its required clear space.

## SPACE

Negative space within and around the logo elements is as important as the content of the logo. Avoid crowding the logo with images, text, or other graphics that compromise its impact and visibility.

The amount of clear space around the lockup should be equal to or greater than the height of the B in the wordmark.

**Charcoal**

HEX – 242834

CMYK – 80, 72, 54, 60

## LOGO GARDEN

When the logo appears adjacent to other logos, the distance between the other elements should be double the minimum clearance defined by the height of the 'B' in the wordmark.

When formatting logos, always align to the center of the logo lockup in its entirety. Use the horizontal line in the symbol as reference.

## MINIMUM SIZE

The minimum width for screen application of the horizontal logo is 210 pixels. The minimum width for the vertical logo in print application is .75 inches.

Be sure that the logo is never smaller than what can be clearly executed.

**DIGITAL**  
210 pixels wide  
72 dpi

**PRINT**  
.75 inches wide  
150 dpi

## COLOR LOCK-UPS

The logo should appear in charcoal or white and should not appear in any of the other brand colors.

\*Black is acceptable when limitations apply.

### DO

The charcoal logo is the preferred, hero treatment.

#### Charcoal

HEX – 242834

CMYK – 80, 72, 54, 60

#### Space Grey

HEX – 242834

CMYK – 80, 72, 54, 60

### DO

The white logo can be placed on other colored backgrounds with enough contrast, but cobalt is the recommended treatment.

#### Cobalt

HEX – 2855FF

CMYK – 81, 67, 0, 0

#### Pure White

HEX – FFFFFFFF

CMYK – 0, 0, 0, 0

## BLACK AND WHITE LOCKUPS

It is strongly preferred for the logo to appear in charcoal or white layered on our color palette. When technical or partner limitations arise, the black and white lockups can be used.

### ACCEPTABLE

The black logo is acceptable only when charcoal is not an option.

### ACCEPTABLE

The black background is acceptable only when charcoal is not an option.

## MISAPPLICATION FOR COLOR USAGE

To reinforce the visual identity, the logo must always appear in dark grey or white on contrasting backgrounds.

### DON'T

Do not alter one color element of the logo. The symbol and wordmark must always be the same color. No part of the logo should ever appear in blue.

### DON'T

Do not place the logo on backgrounds that do not have enough contrast. Always place the white logo on blue.

## MISAPPLICATIONS FOR LOGO FORMATTING

Do not change, alter, or modify any part of the logo. Maintaining the integrity of the logo is necessary to ensure consistent recognition and build brand equity. The logo should be used properly in every application without exception.

Some of the more tempting mistakes are illustrated to the right. Avoid these to ensure clear and consistent brand communication.

**DON'T**  
Do not change the opacity or color of the logo.

**DON'T**  
Do not reconstruct the logo in any way, such as altering the letter or line spacing on the wordmark.

**DON'T**  
Do not alter the typeface or font in any way.

**DON'T**  
Do not flip the direction of the symbol.

**DON'T**  
Do not alter the spacing between the symbol and the wordmark.

**DON'T**  
Do not resize or change the scale of individual aspects of the logo.

**DON'T**  
Do not skew or angle the logo.

**DON'T**  
Do not alter the format of the logo.

**DON'T**  
Do not crush or stretch the logo's proportions.

**DON'T**  
Do not add textures, patterns, effects to the logo.

**DON'T**  
Do not add any content or designed elements to the logo.

**DON'T**  
Do not outline or change the stroke of the logo.

## VERTICAL LOCK-UP

The vertical logo provides a condensed solution when there are space limitations for the horizontal logo.

Always refer to the designated clear space guidelines throughout this document when placing any elements of the identity.

**BLOCKCHAIN  
ASSOCIATION**

## CONSTRUCTION AND MINIMUM CLEARANCE

Negative space within and around the logo is as important as the content within the logo. Avoid crowding the logo with images, text, or other graphics that compromise its impact and visibility.

**Charcoal**  
HEX – 242834  
CMYK – 80, 72, 54, 60

The amount of clear space around the lock-up should be equal to or greater than double the height of the B in the wordmark.

## MINIMUM SIZE

The minimum width for screen application of the horizontal logo is 100 pixels. The minimum width for the vertical logo in print application is .75 inches.

Be sure that the logo is never smaller than what can be clearly executed.

**DIGITAL**  
100 pixels wide  
72 dpi

**PRINT**  
.75 inches wide  
150 dpi

## COLOR LOCK-UPS

The logo should appear in charcoal or white and should not appear in any of the other brand colors.

\*Black is accepted when limitations apply

### DO

The charcoal logo is the preferred, hero treatment. It should appear over a space grey or white most often, but colored backgrounds with enough contrast are also acceptable.

#### Charcoal

HEX – 242834

CMYK – 80, 72, 54, 60

#### Space Grey

HEX – 242834

CMYK – 80, 72, 54, 60

### DO

The white logo can be placed on other colored backgrounds with enough contrast, but cobalt is the recommended treatment.

#### Cobalt

HEX – 2855FF

CMYK – 81, 67, 0, 0

#### Pure White

HEX – FFFFFFFF

CMYK – 0, 0, 0, 0

## BLACK AND WHITE LOCKUPS

It is strongly preferred for the logo to appear in charcoal or white layered on our color palette. When technical or partner limitations arise, the black and white lockups can be used.

### ACCEPTABLE

The black logo is acceptable only when charcoal is not an option.

### ACCEPTABLE

The black background is acceptable only when charcoal is not an option.

## MISAPPLICATION FOR COLOR USAGE

To reinforce the visual identity, the logo must always appear in dark grey or white on contrasting backgrounds.

### DON'T

Do not alter one color element of the logo. The symbol and wordmark must always be the same color. No part of the logo should ever appear in blue.

### DON'T

Do not place the logo on backgrounds that do not have enough contrast. Always place the white logo on blue.

## MISAPPLICATIONS FOR LOGO FORMATTING

Do not change, alter, or modify any part of the logo. Maintaining the integrity of the logo is necessary to ensure consistent recognition and build brand equity. The logo should be used properly in every application without exception.

Some of the more tempting mistakes are illustrated to the right. Avoid these to ensure clear and consistent brand communication.

**DON'T**  
Do not add any content or designed elements to the logo.

**DON'T**  
Do not outline or change the stroke of the logo.

04

# Colors

# THE PALETTE

Like everything that runs through the Blockchain Association, the color palette is designed to reflect optimism and carry a bold impact.

The most prominently used colors, cobalt and charcoal carry a elevated authoritative tone, while the neutrals of space grey and white help balance the colors in an intuitive and familiar way.

## FULL PALETTE

Clarity starts with simplicity and we create instant brand recognition with our limited core colors of cobalt, charcoal, and space grey. The essence of all brand materials should feel bold and graphic, however, an expanded palette gives us more versatility for illustrations and hierarchy within designs.

### Secondary Colors Dark

### Core Brand Colors

### Secondary Colors Light

## COLOR BALANCE

Always prioritize the core brand colors and check yourself if more than 2 colors are used on a page. Reserve the brighter, expanded colors for infographics, illustrations, text callouts.

Cobalt

Space Grey

Pure White

Charcoal

## EXPORTING COLORS

Always ensure the correct color codes are plugged in when working in digital or print spaces.

Never use the eyedropper tool or try to match a color by eye.

When working in print always check you are exporting in CMYK and when working on digital check that you are using RGB and HEX codes.
